

NATIONAL ALLIANCE OF WOMEN VETERANS

MISSION STATEMENT

The National Alliance of Women Veterans is a Philadelphia-based organization established to address specific concerns of women veterans who have served in the armed forces, particularly those who are victims of sexual assaults, through legislation and policies implemented to deal with this issue.

Our goal is to be a liaison that provides a nexus between government and the transitional services which are designed to assist these women, as well as to provide networking and support to the women veterans' community.

CATHY SANTOS,
honorably discharged, Gulf-war
era veteran, founded this
organization with the expressed
desire to end MST.

*As a victim "survivor" of military
sexual assault and harassment:
"I understand the pain and
suffering associated with this life-
changing and extremely quieted
dilemma that a woman can face.*

*It is my hopes through my
continued efforts to provide
support and assistance to women
who are also victims of MST.*

*The present system is flawed and
is slow to address the associated
"retaliation" and "torture" that is
designed to intimidate and stop
women from coming forward -
but we must continue to fight."*

**We need your story~
it is time to tell -
